

SAMPLES OF VAKI PUZZLES AS CARD GAMES

(puzzles 199-211 from Vaki Puzzles - card games vol 2)

These puzzles are solved when the sixteen picture cards from a standard deck of cards are arranged in a four by four grid so that every picture (Ace, King, Queen, Jack) and every suit (hearts, diamonds, clubs, spades) appears once in each row and once in each column, starting with the clues provided.

These sample puzzles are 'easier'.
